L. O. POLLARD,

GILMAN H. TUCKER.

CHARLES POORE,

Chief of Police,

E. B. GREENLEAF.

Superintendent of Schools,

CLARENCE E. BAKER.

Town Warrant.

[L. s.] STATE OF NEW HAMPSHIRE.

To the Inhabitants of the town of Raymond, in the County of Rockingham, in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the town house in said town on Tuesday, the eighth day of March next, at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary town officers for the ensuing year.

2. To raise sums of money as may be necessary for the maintenance of the poor, for laying out and repairing highways, and building and repairing bridges, and for all other necessary charges arising within the town.

3. To see what sum of money the town will vote to raise to pay the Fire Company.

4. To see what sum of money the town will vote to raise for Memorial purposes.

5. To see if the town will vote to make a discount of three per cent. on all taxes paid on or before June 15, 1910.

6. To transact such other business as may legally come before said meeting.

Given under our hands and seal this nineteenth day of February, A. D. 1910.

WALTER J. DUDLEY,
ENOCH F. STEVENS,
ANDREW C. SMITH,

Selectmen of Raymond.

Town debt Feb. 15, 1910	24,299 75
	<hr/>
Reduction of debt	\$2,262 66

We have had another fairly successful year and the town debt has been reduced.

A town water bond was offered for sale and, having money in the treasury that was not needed at that time for any other purpose, we bought the bond at par and have cancelled it, thus reducing the bonded debt of the town by \$100.

February 15, 1909, the Superintendent of Pine Grove Cemetery reported to the Selectmen that there were more than fifty unsold lots in the cemetery, but that he was unable to sell any of them (though there was a constant demand) because lots and avenues were incumbered with trees. At the

annual town meeting in March, the Selectmen were instructed to remove such trees as in their judgment was necessary to make the unsold lots desirable; most of such trees have been cut and the lumber sold. Already four lots have been sold and we doubt not but that in the near future *everyone* will acknowledge that the cemetery grounds have been much improved.

WALTER J. DUDLEY,
ENOCH F. STEVENS,
ANDREW C. SMITH,

Selectmen of Raymond.

We, the undersigned, Auditors of the town of Raymond, have examined the accounts of the Selectmen for the year ending February 15, 1910, and find them correctly cast and properly vouched.

Report of School Board.

Once again we are making a school report for the year ending February 15, 1910, and while we have no need of making a long one, we are pleased to say that the schools are in better shape than ever before. The last year has been a great improvement over the last two years. The graded school is such an improvement over the old way. We do not expect perfection, but we do see very great improvement from year to year under the present system.

Under the present system we are receiving assistance from the state which we could not obtain otherwise, and which has enabled the town to have this year thirty-four (34) weeks schooling in the outside districts, and will for the coming year enable them to have thirty-six (36) weeks. Owing to so many cases of measles, we had to close the Primary and the Intermediate schools two weeks, and also the outside schools, the High or Grammar school being the only one not closed.

We would advise that the parents visit the schools and see for themselves the condition of the schools and get acquainted with the teachers. It would be a great benefit to all concerned.

Under the present system our boys and girls, who go away to Pinkerton or Sanborn Academies to school, have been able to begin without taking a preparatory course, but instead enter upon the second year, which saves the town and parents one or two years expense, which is quite an item.

The attendance has been excellent; 95 per cent., on which the state allowed us \$180; so you see that it pays parents to see that their children attend school every day possible. We hope to maintain this standard in the future by your help, and so lengthen the number of weeks of school.

There is another thing we would mention and that is the register shows too many tardy marks. The teachers have

tried hard to have the pupils on time, and we are certain that there is no excuse for the large number of tardy marks against some of the scholars. It is just as easy to get into the habit of being there on time as to be behind time. We would advise parents to look into this, for we think they do not wish their children to be late at school.

At present we have an excellent corps of teachers; they are thinking and planning and working hard for the best interest of their pupils. We are certain that the future looks very bright for even greater results. Let parents, School Board, and a most excellent Superintendent pull together, and we are sure that great good will crown their efforts.

We would request that the Selectmen assess the statutory requirements for books, supplies, and High school tuition as recommended by the Superintendent, viz.: eighty dollars for books, seventy-five dollars for supplies, and two hundred and fifty dollars for High school tuition.

Respectfully submitted,

FORREST E. PAGE,
WILL B. GILE,
MARY A. BAKER,

School Board of Raymond.

Raymond, N. H., February 18th, 1910.

We, the undersigned, Auditors of the town of Raymond, N. H., have examined the accounts of the School Board for year ending February 15, 1910, and find them correctly cast and properly vouched.

JAMES M. HEALEY,
GILMAN E. GILE,

Auditors.

SUPERINTENDENT'S REPORT.

To the Honorable School Board of Raymond:

In making this, my third annual report, I am able to say that our schools are progressing, and that we have made appreciable gains during the past year. On the purely academic side our work is good. At the end of the Grammar school course our children have a good working knowledge of practical arithmetic and English, and are well grounded

in United States history, geography and personal hygiene. But this is the minor part of a Grammar school education. The major part is knowledge of self and natural abilities and tastes. At the end of the Grammar school work the child should have been developed in such a way that his natural ability and talent for some occupation will be apparent, an occupation that he can pursue with the greatest advantage to himself and the state. To accomplish this, there must be the heartiest co-operation between the parents, the teachers, and the school officials.

To you, parents of our children, we must look for the greatest aid in the above mentioned work. You must help in finding out the natural ability of your child and then educate him along that line. The child's pleasure and usefulness depends upon the choice of an occupation. There can be no greater misfortune befall a person than to be obliged to work all his days at some occupation which he dislikes, and for which he was not fitted by nature.

There is still another phase of school work in which aid must be given by the parent, that is attendance. A day lost can never be regained; it means one day of the child's school life wasted, that he has been cheated out of a part of his American birthright. But there is another side to the question; a side that will appeal to every taxpayer in town as well as to the parents. Our aid from the state depends upon the average attendance and the number of weeks of school; a very few absences may mean considerable loss.

Books and Supplies.

I am not a great believer in the efficacy of books as a rule, except in reading. But reading is the foundation of education in all lines. Good work cannot be done in any branch unless the pupil can read both intelligently and intelligibly. It has always been my policy to expend the major part of the book money for material of this kind. The coming year will be no exception and quite a sum is needed; there is need also for some uniform English text-books, besides the few books

necessary to replace those worn out. I, therefore, recommend that the sum of eighty dollars be set aside for books and seventy-five dollars for supplies.

High School.

Every year an increasing number of our youths are attending schools for secondary instruction. This is as it should be, but it calls for more money. Two hundred and fifty dollars will be the sum that should be raised by the District.

In closing, I wish to thank the Board for their support, I also wish to thank the children, teachers and parents for their cheerful help and aid.

Respectfully submitted,

CLARENCE E. BAKER, *Superintendent.*

REPORT OF C. J. WHITING, TREASURER OF SCHOOL BOARD.

	\$200 67

GEORGE W. PURINTON, *Town Clerk.*

Report of Water Commissioners.

We have had three new service pipes added to the system since the last report. There has been more money collected from water by over \$400.00 than in any previous year. The new arrangement with the Boston and Maine railroad, whereby they pay for the water used by measure, has been very satisfactory, and during the last year their payment for water has been a little over \$515.00. During the year the elevator at the shoe shop has been repaired, so that it is now in good working order. Another line of heating pipe has been put in the north side of the lasting room. The past year the boiler began to show the effect of twenty years of hard work, and after a thorough examination and consulting with inspectors, it was not deemed prudent by your Commissioners to depend longer on the old boiler to do the work. Accordingly, we ordered a new boiler and it has arrived, and is being put in position at this writing. The price of the boiler, with smoke pipe, is \$908.00, f. o. b. Raymond, N. H., which, with the expense of setting the same, we estimate will cost \$1600.00 or a little more.

Perhaps all do not realize how much depends on the working of the boiler at the pumping station. When it doesn't do its work we cannot have water in the system. The electric plant for Falconer & Feely shoe shop cannot run for want of water. So that much depends on the proper working of the boiler at this station.

We were unfortunate this winter in having a large formation of ice in the standpipe, which broke down the bracing and was removed at quite an expense. Other conditions in regard to the water system are about the same as one year ago. The list of bills paid and the balance sheet follows:

Respectfully submitted,

GEORGE E. FELLOWS,
CARL J. WHITING,
LEWIS E. GRIFFIN,

Water Commissioners.

Raymond, N. H., February 15, 1910.

The following bills have been approved and paid:—

Sale of gravel and apples	1 25
Water bills uncollected Jan. 1, 1910	112 71
Balance	17 10

\$34,689 09

Report of Board of Health.

The Board of Health wish to call the attention of the townspeople to the importance of keeping the sanitary condition of our town in the best possible condition, as on this depends the health and happiness of families. A few cesspools have been reported in poor condition, and some of the drains around our public stores and buildings, and these have been looked after, and new ones made and old ones cleaned. We also wish to impress upon you the necessity of keeping our water pure and clean by not throwing old refuse in or near the river where it will pollute it. Consult with the members of the Board, and we will try and keep in good condition with your assistance.

We would especially call your attention to the law in regard to sink drains and privies, cesspools, etc., as printed below as copied from Public Health Law of our State, Chapter 108, Sec. 8:

No person shall occupy, lease to any other person, or permit any other person to occupy, a building or any part of a building, within the compact part of a city or town as dwelling house, office, store, shop, or sleeping apartment, unless such building shall be provided with suitable privies or vaults, properly ventilated and constructed, and kept in proper sanitary condition, and in case of occupancy as a dwelling house, unless it shall be provided with suitable drains or sewers for carrying the sink water away from the premises into some public sewer, if there be one within one hundred feet thereof, and if not, for conveying it away underground or in some other way that will not be offensive.

Section 9. Any person, neglecting or refusing to comply with the provisions of the preceding section, shall be fined not exceeding ten dollars for each day of neglect or refusal, after notice, as provided in Section four of this chapter.

A number of cases of measles have been cared for in town the last few months, and all are getting over them. As yet no fatalities have occurred from them. No typhoid fever or tuberculosis cases have been in town this year, and on the whole it has been a very healthy and prosperous year.

J. EARL LADD,
JOSEPH A. BLAKE,
G. H. GUPTILL,

Board of Health.
